Dear Steve,

This is very encouraging news. I am pleased that Powertech will have to store the water, test, and meet a discharge limit for radium prior to discharging the water from the pump test. I understand that Powertech is not pleased and has requested a meeting with you tomorrow, Wednesday July 28. I hope that you and the WQCD will stand firm and not relax these reasonable requirements.

Thanks so much for your e-mail.

Best wishes,

Randy Fischer, State Representative
